

**Mehdi Dianatpour PhD,**

Associate professor of Medical Genetics, Department of Medical Genetics,  
School of Medicine, Shiraz University of Medical Sciences, Shiraz, Iran

Head of Stem Cell Technology Research Center, Shiraz University of  
Medical Sciences, Shiraz, Iran

P.O.Box : 7193635899

Tel: +987132349610

Dianatpour@sums.ac.ir

mdianatpur@gmail.com

**PERSONAL INFORMATION**

Date of Birth: Aug 24 1969

Marital Status: Married

Languages: Persian, English

**EDUCATIONAL QUALIFICATION**

Degree: Ph.D. in Medical Genetics

Year: 2012

Institute: Department of Medical Genetics, Tehran University of Medical Sciences, Tehran, Iran.

Thesis title: Expression analysis of three cancer testis genes in breast cancer and determination of immune response against them in patients' serums.

Degree: Doctorate in Medical Laboratory technology

Year: 1995

Institute: Department of Lab Medicine, School of Paramedicine, Shiraz University of Medical Sciences, Shiraz, Iran.

Thesis title: Anti neutrophil cytoplasmic antibody in Ulcerative colitis and its relation to disease activity in patients.

## **RESEARCH INTEREST**

During my postgraduate studies and later in department of medical genetics, I worked on cancer genetics and expression analysis of cancer testis genes in breast cancer, prostate cancer and thyroid cancer and also I am very interested in PGD (Pre implantation Genetic Diagnosis) in Chromosomal disorders and single gene disorders like thalassemia and hearing loss. As I am head of the Stem Cell Technology Research Center, I am experienced in isolation, characterization and differentiation of mesenchymal stem cells and their role in regenerative medicine. Recently I am working on gene editing by CRISPR Cas9 technology in DMD and cancers.

## **CURRENT STATUS**

I am currently working as an Associate Professor of Medical Genetics in Department of Medical Genetics and stem cell technology research center. I am also director of molecular genetics and Cytogenetic lab in Medical Genetics Comprehensive Center in Shiraz. This center is the greatest genetic center in southern Iran and performs various types of genetic tests such as karyotype on peripheral blood, amniotic fluid and CVS, FISH test, QF PCR, PCR sequencing, NGS and NIPT data analysis and interpretation, PGD and maternal serum screening. This center has more than 4000 amniotic fluid samples each year.

At this center, I also do genetic counseling for infertility, recurrent pregnancy loss, prenatal disorders and hearing loss.

## **TECHNICAL EXPERTISE**

### **Molecular**

- PCR
- Real time PCR
- Gel electrophoresis
- Molecular cloning
- Electroporation
- Western blot
- Pronuclear microinjection

- Flowcytometry
- Gene editing by Crispr Cas9
- Viral vector production like lentivirus and AAV for gene transfer

## **Diagnostic Genetics**

- Karyotyping and chromosome analysis (Blood, Amniotic fluid and CVS)
- QF-PCR
- Array CGH
- FISH (Metaphase, Interphase and blastomere for PGD)
- Single cell PCR for PGD

## **Cell culture**

- Amniotic fluid and CVS
- Mesenchymal stem cell culture
- Wharton jelly stem cell culture
- Embryonic stem cell culture
- Embryonic fibroblast culture
- Fibroblast culture

## **Professional Experience:**

2016 Gene editing by Crispr-cas9, Visiting scholar at the Cardiovascular research center, School of medicine, Yale University, CT, USA

2016 Next Generation Seq. School of medicine, Miami University, FL, USA

2014 Transgenic Mouse production by microinjection of embryonic stem cell in blastocyst, Royan institute, Tehran, Iran

2013 Professional training in Preimplantation Genetic Diagnosis(PGD), Reproductive Genetic Institute (RGI), Chicago, USA

2013 Karyotype of blood and amniotic fluid. Brigham and women hospital, Boston, USA,

2013 Training in IVF and Andrology Lab, University Hospital, Cleveland, USA

2012 Cytogenetics Training, Fetal surgery group, Valde Hebran Hospital, Barcelona, Spain

2012 Training in IVF Lab, blastomere biopsy and fixation, IVI, Barcelona, Spain

2011 Diagnostic Molecular and Cytogenetic Training, Department of Medical Genetics, Kayseri, Turkey

## Achivements

1-Distinguished young scientific award in Stem Cell Research- First international congress in stem cell, Kayseri, Turkey

2-Introducing a new syndrome with severe skeletal dysplasia and short stature and identifying the causative gene (Biallelic TMEM251 variants in patients with severe skeletal dysplasia and extreme short stature. Human mutation Volume 42 Issue1Pages89-101) – (Co first Author)

<https://www.omim.org/entry/619345?search=tmem251&highlight=tmem251>

## CERTIFICATES

1-Sabbatical (3 months) on Cardiovascular Genetics, Yale University, USA, 2016

2-Next Generation Sequencing, Miami university, USA, 2016

3-PGD for chromosomal diseases. RGI, Chicago, USA, 2013

4-PGD for Single gene disorders. RGI, Chicago, USA, 2013

5-PGD by array CGH. RGI, Chicago, USA, 2013

6-Karyotype of blood and amniotic fluid. Brigham and women hospital, Boston, USA, 2013

7- Intracytoplasmic sperm injection, embryo evaluation, cryopreservation, embryo transfer. Ahuja Medical Center, Cleveland, Ohio, USA, 2013.

8-Blastomer biopsy and fixation. IVI, Barcelona, Spain, 2012.

11-1st Stem cell summer school "Bone marrow stem cells from bench to bed". Ergiyes University, Kayseri, Turkey, September 30-October 6, 2011.

## OCCUPATIONS

1- Faculty member, Kazeroon Azad University 1996-2000

2- Technical manager of a private clinical lab in Behbahan, 2000-2005

3- Technical manager of a private clinical lab in Firoozabad, 2005-2009

4- Founder of a private clinical lab in Firoozabad, 2005 until now

5- PhD student, 2009-2012

6- Faculty member, School of Medicine, Shiraz university of Medical Sciences,2012 until now

7- Head of Stem Cell Technology Research Center, 2012 until now

8- Director of Cytogenetic Lab, Medical Genetics comprehensive center, Shiraz University of Medical Sciences, 2012 until now

9- Director of molecular genetic Lab, Medical Genetics comprehensive center, Shiraz University of Medical Sciences, 2019 until now
